

Tesla Outsourcing Services is a trusted BIM and CAD services provider that's been delivering quality solutions since 2007. We work with clients in the USA, UK, Europe, Canada, Australia, and beyond. Our team specializes in Architectural, Structural, and MEP services like BIM modeling, CAD drafting, 3D rendering, and Scan to BIM. With a focus on clear communication, customized support, and on-time delivery, we help make design and construction easier, smarter, and more cost-effective.
